

Rail Engineering Group Limited (REG) is a supplier of quality technical consultancy services to the rail industry, specialising in rolling stock.

Rail Engineering Group is committed to providing and maintaining a healthy and safe environment for all its employees and to protect the safety of contractors, customers, visitors and all other persons affected by our operations.

This is to be achieved by assessing all significant risks, designing safe systems of work and eliminating hazards where reasonably practicable.

Safety for others and ourselves is a primary concern when carrying out company activities.

We are committed to:

- Reducing the incidents of personal injury and occupational illness.
- Minimising loss caused through near miss. property damage, fire & breach of security.
- Ensuring all buildings, plant and equipment are maintained and comply with current legislative requirements.
- Providing training, instruction and information to maintain a level of competency throughout the company.
- Ensuring adequate resources and funding are available to seek to improve health and safety.
- Encouraging and supporting managers and staff in their resolution of safety issues to promote improvements.

We will apply standards in line with our Business Objectives for continuous improvement.

We will comply with all mandatory Health and Safety legislation.

It is the responsibility of all of our employees to co-operate with this policy to work safely and to prevent being exposed to unnecessary risk. We do not ask staff to work in unsafe conditions and we welcome the initiative of employees where health, safety and environment can be sensibly improved.

"Safety for others and ourselves is a primary concern in all that we do"

This policy is reviewed regularly to ensure its continued relevance to our business.
